Title: Connection between sleep,
obedience to Allah and ones
intellect

- Bismillahirrahmaanirrahbeem
- In The Name of Allah, The
Entirely Merciful, The
Especially Merciful

Text/Matn

1. There is a direct correlation between
sleep and the intellect - especially
when concerned with the issue
of creativity

- And Allah knows best

2. When the above is coupled with
the sincere obedience of Allah; then
(only by the will of Allah), ones
intellect has no limit (of course except
that at which Allah himself sets for it,
wills, commands, legislates and permits)
- in the worldly sense;

and one can achieve in this
world, as well as the next; all that
they desire (Allah permitting)

- Oh Allah give us all khair (good)
- wa Allahu A'lam
- Alhamdulillah, was-salaatu was-salaam
'alaa Rasulillah
